

## HARMONY® PRO ULTRA: PREMIUM TISSUE. SUPERIOR COMFORT.

With Harmony Pro Ultra, customers do not have to choose between quality and cost – or between quality and the environment. Our high-quality paper towels and bath tissue couple ultra-premium softness with strength and absorbency giving the perfect balance of performance and sustainability.

The Harmony® Pro Ultra line now carries the SFI® Certified Sourcing label on the packaging. This certifies that the fiber used in these products comes from a company that is certified to the SFI Certified Sourcing standard. With this fiber certification, the choice is made even easier.

Since Resolute is a vertically integrated producer, we have full control over the pulp and fiber used to make our products. This means we can consistently deliver high-quality products, while ensuring our production is efficient and procurement of fiber is sustainable.
